

1 Make your way to the venue and let Reception know you have arrived

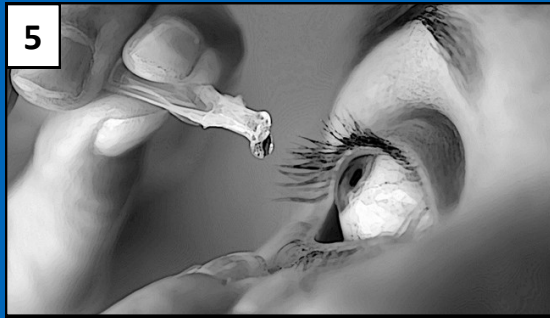

2 Read carefully and sign the consent form, if you have any questions ask your Screener

3 The Screener will come and collect you for your appointment

4 The Screener will ask you to read an eye chart

5 The Screener will apply some Tropicamide eye drops to dilate your eye

6 Return to the waiting room to let the drops dilate your eyes

7 After 15-20 minutes, the Screener will take a photograph of the back of your eye (retina)

8 The drops make your eyes sensitive, so bring sunglasses and don't drive for up to 4 hours

9 You will receive your result letter within a few weeks of your appointment
