"The event was really well organised and run on the day ... all volunteers found the experience very rewarding..."

Case study: Wyelands Bank

We are very grateful for the support from Wyelands Bank, who we have been working with for a number of years. Wyelands Bank have supported our programmes in a number of ways: through team fundraising, corporate donations and volunteering at the centre at one of our regular Interview Skills Days.

Through their relationship with us, Wyelands Bank have had team-building opportunities for employees, developed staff skill sets and boosted their Corporate Social Responsibility targets.

What they said...

"The event was really well organised and run on the day ... people were impressed with how seamless it felt moving between the group and individual sessions; the exercises were well thought-out and contributed to the sessions going smoothly; and, all volunteers found the experience very rewarding despite quite a few feeling nervous in advance of the day."

Wyelands Bank Volunteer

"It made me realise that I have an ability to be a mirror to people and to make them feel good about themselves."

Case study: Lloyds Bank

Lloyd's regularly volunteer with us at our Interview Skills Days and we are very fortunate to be supported by the Lloyds Bank Foundation as one of our largest corporate funders.

As well as improving their CSR, engaging with our programmes also provided staff with a number of valuable personal development opportunities, giving them the space to build coaching, motivation and leadership skills.

What they said...

"To see people ... grow and flourish throughout the day was humbling and moving. I'll never, ever forget. I think it has changed me. It made me realise that I do have an ability to engage with people from all walks of life and can find commonality. It made me realise that I have an ability to be a mirror to people and to make them feel good about themselves. I discussed this with my leadership team and they reinforced that I have this ability in work too which is why I have great followership. It's made me want to do more and more."

Managerial Staff - Lloyds Banking Group

"It was great to engage with people, really make a difference ... and help rebuild their skills."

Case study: MACE

MACE have worked with us in a number of ways: offering apprenticeships to a client, volunteering on Interview Skills Days and some of our Children and Young People's programmes and supporting our programmes with a corporate donation, which has boosted employee CSR achievement as well as employee development.

What they said...

"It is a really worthwhile opportunity to give something back."

"Good opportunity to provide value to others. To a great and worthy cause."

"I feel it was a valuable session and a good use of volunteering time. The ability to partake with limited pre-work was helpful in terms of a busy work agenda."
